

# COMMUNITY UPDATE

June 16, 2022

[WWW.MTHCS.COM.AU](http://WWW.MTHCS.COM.AU)

## Staying healthy during winter

As winter is here it is important we keep doing the things that keep us all safe such as:

- Making sure you are up to date with your COVID-19 vaccines and that you get vaccinated against influenza (flu);
- Using hand sanitiser and/or washing your hands regularly;
- Wearing a face mask when required and when you can't physically distance;
- Improving ventilation by opening doors and windows (when possible), using fans or purifiers and gathering outside where possible.

## Winter is here

**Get your child vaccinated against flu and COVID-19.**

## Getting vaccinated in the Mallee

**COVID-19 vaccinations:** COVID-19 remains a risk, which means it is still important to be vaccinated against this highly infectious virus. COVID-19 vaccines for adults and children are available at our medical clinics. Please phone your local clinic to make an appointment.

**Flu vaccinations:** Free influenza vaccines are available during the month of June to people over six months of age. Please phone your local medical clinic to make an appointment.

**Ouyen Medical Clinic: (03) 5092 1168**

**Sea Lake Medical Clinic: (03) 5070 2118**

*Pictured above: The Northern Mallee Integrated Partnership met at MTHCS in Ouyen recently, with representatives from Mildura Base Public Hospital (MBPH) and Robinvale District Health Services (RDHS) discussing the progression of shared priorities. Pictured (L-R) is Steve Fumberger (MTHCS Board member), Mary Rydberg (MBPH Board Chair), Terry Welch (MBPH CEO), Lois O'Callaghan (MTHCS CEO) and Denise Parry (RDHS Acting CEO).*

## Introducing the Montessori model of care at MTHCS

At MTHCS, we recognise everyone is an important part of our community, with their own values and strengths. That is why we are introducing the Montessori model of care to our residential aged care communities. This approach will help improve the fabulous care we already offer by focusing more on individual strengths and treating people with respect and dignity.

The goal of Montessori is to support people to be as independent as possible, able to make choices and who are treated with respect and dignity. Montessori enhances quality of life. The Montessori approach will be introduced slowly as we undertake training and apply what we learn. We are holding various information sessions for staff and residents' families, but if you have any queries, please speak to us.

*Pictured above: (top) Anne Kelley (Montessori Consulting) taking MTHCS staff through training sessions; and supporting residents to be actively involved in meaningful activities (such as preparing meals or gardening) is an important part of the Montessori model of care.*

## NEW OPPORTUNITY
